REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Upon reconsideration, the reference Makkonen does not disclose an optical sensor by detecting opacity of the web. It is generally known to provide optical sensors that detect opacity in webs, for example, Azcua et al. (US Patent No. 4,310,885) directed to detecting bills in an automatic money handling apparatus, Lodzinski (US Patent No. 4,019,819) directed to detecting optical properties of paper webs, and Graef et al. (US Patent No. 5,540,425) directed to detecting envelopes or single document deposits in automatic teller machines. However, no prior art was found to show or suggest a method for sealing a zipper tape to a web where splashes in the zipper tape are optically detected with an optical detector that detects opacity variations in the claimed environments.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
